Campaign process  
to Vote for  
"Healthy Democracy"

Elections are like festivals in a democracy. A healthy democracy requires active participation of its people. Contributing towards making election process more robust; is a sovereign duty of every citizen and organization. In this process, Samskruti Foundation in collaboration with NSS (National Service Scheme), and MGNCRE (Mahatma Gandhi National Council of Rural Education) organized a statewide campaign to promote 100% voting. 'Let's Vote' provided valuable content to run the campaign.

**The campaign was run in 10 different district clusters of Telangana.** NSS Program Officers and Students actively participated and discussed the ideas to promote 100% voting. Resource persons from Samskruti Foundation and MGNCRE facilitated these programs.

Participants were educated about the 'Electoral Literacy Club'. Important questions like – What is EVM, what is VVPAT, and what is the importance and value of each vote, how to find out your polling booth, how to deal with problems in voting process, what are the important resources to address issues etc. were taken up during this interaction. Mock polling, skits, wall of democracy (a signature campaign with selfie and video message), question and answer sessions etc. helped the participants to stay involved. **All programs concluded with a 'National Voter Pledge'**, in which the participants pledged to actively participate and promote ethical voting.

**More than 2000 people directly participated** in the campaign. These participants in turn would indirectly be touching on more than one lakh people towards the cause of 100% voting.

Samskruti Foundation is a registered trust, working since 2010 towards nation building by promoting and nurturing Indian culture and traditions through various programs of outreach to different sections of the society.
